webfleet

G-Force COMMUNICATIONS LTD

Webfleet Mobile App

Manage your fleet operations on the go

You don't need to be at your desk to control your fleet. With Webfleet Mobile, it's all right there in the palm of your hand.

BENEFITS

STAY CONNECTED TO YOUR VEHICLES AND ASSETS
Wherever you are, whatever the time

FIND YOUR DRIVERS, VEHICLES AND ASSETS QUICKLY
Real time location and status updates on one interface

SERVE YOUR CUSTOMERS BETTER
Up-to-date, accurate ETAs for jobs in progress

ADAPT TO THE UNEXPECTED
Instant notifications when a disruption occurs

STAY COMPLIANT
Driving time data available on the app

DISPATCH NEW ORDERS QUICKLY
React fast and keep your business running efficiently

FEATURES

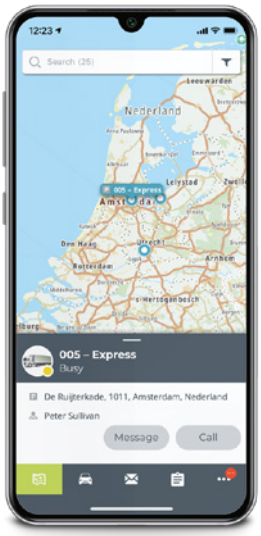
VEHICLE AND ASSET TRACKING

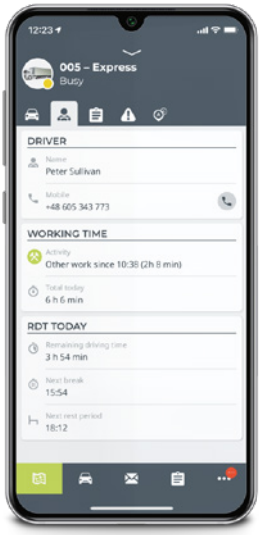
Locate your vehicles or assets[2] in real time, see where they're headed and get the driver's information.

MAPS VIEW

Find a single vehicle or the entire fleet on TomTom Maps or Google Maps, with the ability to search by using the vehicle list and filters, including vehicle availability, statuses, trip mode and groups.

FEATURES





TRAFFIC
Plan routes around traffic with traffic information viewable on the map.

MESSAGES
View text, status and order messages. Send messages straight to the driver's PRO Driver Terminal.

TRIP DATA
Access previously recorded trip data by date for a single vehicle or the entire fleet. Check the start and finish points, the journey duration, the distance travelled, recorded trip/order details and the Driver ID.

ORDERS
Dispatch orders and view the progress of an order from a selected vehicle, including the location of the fleet handling the order and the estimated time of arrival.

NOTIFICATIONS/ALERTS
Get instant alerts whenever a vehicle enters or leaves a previously designated geo area and when an order status changes.

LANGUAGE SUPPORT
English, German, French, Dutch, Spanish, Portuguese, Italian, Polish, Czech, Swedish, Danish.

1. *Remaining Driving Times (RDT) or Tachograph Manager Plus/TachoShare Plus additional service is required.*
2. *Asset tracking requires both the installation of LINK 340 tracking device and an active Asset Tracking tariff subscription.*

GET THE APP

Existing Webfleet customers can download the FREE app for iPhone via the Apple App Store or for Android via the Google Play Store. Just log in with your Webfleet credentials.
