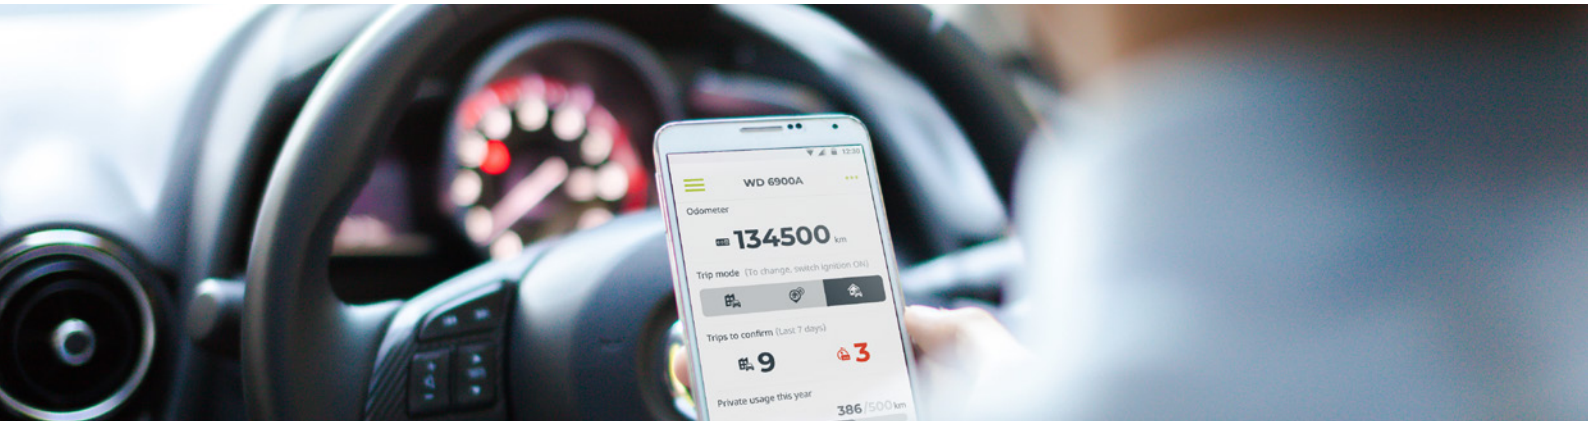
webfleet

G-Force COMMUNICATIONS LTD



Webfleet Logbook

Take the hassle out of trip administration

Get accurate, easy-to-use mileage log administration for cash allowance drivers, company cars/ vans, and flexible pool vehicles, while protecting your drivers' data privacy.

BENEFITS

FOR THE DRIVER

REDUCE WORKLOAD AND SAVE TIME
- All business and private trips are automatically registered.
- Download user-friendly reports for financial, tax and reimbursement purposes.

PROVE TAX COMPLIANCE
- • Meet HMRC obligations with reliable, accurate data.

PROTECT YOUR DRIVERS' PRIVACY
- Respect your drivers' privacy when they use company vehicles for personal journeys.
- Drivers cannot see other colleagues' trips in Webfleet. Personal trips also remain hidden from the fleet administrator.

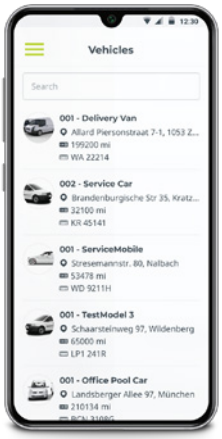
FOR THE EMPLOYER/FLEET MANAGER

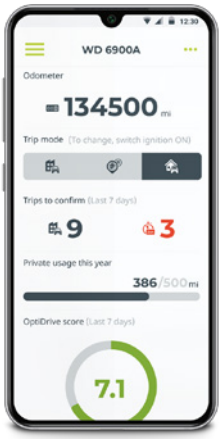
MANAGE DRIVERS IN POOL VEHICLES
Issue unique driver profiles.

SIMPLIFY FLEET ADMINISTRATION
Manage company vehicles usage for tax compliance and cost control, and comply with data privacy regulations.

GET ACCURATE REPORTS
Ensure odometer accuracy by recording mileage directly from the vehicle odometer. [1]

FEATURES





SELECT A VEHICLE
Drivers can self-assign themselves to available vehicles.

DEFINE TRIP MODE
Define the type of trip – business, commute or private.

ENTER TRIP DETAILS
Enter trip details including contact person for the trip, purpose of the journey and comments.

VIEW DRIVING BEHAVIOUR SCORES
Review driving behaviour with OptiDrive 360 driving style insights (up to eight performance indicators) to self-monitor and improve driving style.

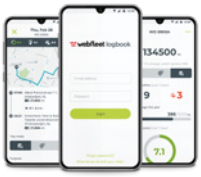
REAL ODOMETER READING
Ensure the LINK device and vehicle odometer information are always aligned by recording mileage directly from the vehicle's odometer.[2]

REPORT DOWNLOAD
Download monthly trip reports for personal and financial administration purposes, such as business mileage claims.

WHAT YOU NEED

LINK VEHICLE TRACKING DEVICE

Webfleet SUBSCRIPTION



THE Webfleet LOGBOOK MOBILE APP
