Webfleet Tachograph manager

Everything you need to stay compliant with minimum hassle

Webfleet Tachograph Manager is the reliable all-in-one solution to download, analyse and archive your tachograph data. Compliance made easy.

BENEFITS

COMPLIANCE MADE SIMPLE

- Minimise administrative hassle and time spent with automated remote downloading.
- Never miss a deadline against compliance regulation by managing multiple deadlines (driver card expiry, vehicle unit data/driver card data downloads) in one place.
- Prove your compliance with our comprehensive reports for worry free inspections
- Analyse and improve the performance of your drivers against compliance regulation with our dashboards and reports.
- **With Tachograph Manager Plus:** Helps you to stay compliant with driving time regulations without contacting the driver, get timely social infringement notifications to reduce the impact of fines.

SAVE COSTS, BOOST PRODUCTIVITY

- Your vehicle schedule suffers less interruptions keeping your drivers on the road.
- Save staffing resources by cutting out administrative duties.
- Analyse and get customised reports to help you make smarter decisions faster.
- **With Tachograph Manager Plus:** Get access to real-time remaining driving time information for increased utilisation.

ENHANCE DATA SECURITY

- We manage your Company Card for you, keeping it in a secure data centre.
- No local infrastructure is required to host data, as it's all managed by Webfleet Solutions.
- Data is stored in compliance with GDPR.
- Clear user control and access right settings.

FEATURES

REMOTE DOWNLOAD
Webfleet Tachograph Manager automatically downloads driver card data and vehicle unit data to make compliance easier.

MANUAL DOWNLOAD
Import manually downloaded files into Tachograph Manager, from vehicles without remote download capability. Provides comprehensive and complete fleet analysis of your entire fleet.

TACHO GRADE
Benchmark your drivers using Tacho Grade to compare number of driving/rest violations per distance driven.

ANALYSIS: SOCIAL INFRINGEMENT REPORT
Get insight into social infringements including the severity of infringements and associated fines.[1]

ANALYSIS: DAILY DRIVING TIME AND REST PERIODS
Download our comprehensive reports to see an overview of driving and rest periods by day, per shift or over a chosen time period.

ANALYSIS: DAILY ACTIVITIES VIEW
At-a-glance insight into your drivers' activities (driving, resting or working time), in a chosen time period.

ARCHIVE
All tachograph data is securely stored in our data centre for at least two years.[2]

TACHOGRAPH MANAGER PLUS

With an additional subscription you can benefit from all the above features plus:

INCREASED AUTOMATED DOWNLOAD SCHEDULE
- Vehicle unit data scheduled every 7 days.
- Driver Card data scheduled every day.

REMAINING DRIVING TIMES
- Accurate daily and weekly remaining driving time for ad hoc dispatch and scheduling.
- Real-time social infringement notifications.

1. *Available in the majority of countries.*
2. *Longer periods of archived data are available where local legislation requires.*
